

Thanks for all your work on our home transition. When we had Ben re-show us our Blue Meadow Road house after the open house, we knew that moving was in our future! And we love our home - and even though our son Keyontae has now figured out that Ben doesn't come with the house, he still loves it too. (I still have great memories of Keyontae trying to get Ben to hold hands and play with our family when we saw the home.) We also appreciate the work and guidance you put into selling our house in 2 and a half months. Ben handled a bunch of details that really made a difference too.

Thanks again... once more an owner of one home (phew) and not two properties!
